Inter-Institutional Postdoctoral Positions

What we are looking for

The Innovation Campus Heidelberg Mannheim Health & Life Sciences is looking for outstanding junior scientists for bridging projects between two or more of the Innovation Campus institutions. Suitable candidates may choose from a wide variety of 138 innovative, inter-institutional projects specifically proposed by Project Leaders of the Innovation Campus for this new initiative. Currently, a particular focus is on **priority areas of cancer research, cardiovascular research, neuropsychiatric diseases, genomics, synthetic immunology, molecular engineering and medical technologies**. Alternatively, applicants are also welcome to define their own research project with at least two PIs at two different institutions of the Innovation Campus. Candidates for the postdoctoral positions should have a PhD, MD or MD/PhD in a relevant area of research.

What we offer

- **Excellent scientific environment** and world-class research institutions in the life sciences
- **Access to high-end technologies and state of the art labs at the campus environment** of the Heidelberg University in Baden-Württemberg, Germany one of the largest biomedical research hubs in Europe
- Through the unique expertise across the institutions, we offer you the exclusive opportunity to **gain insight into transfer of knowledge and development of new applications**
- Accepted fellows will be provided **a two-year contract at one of the Innovation Campus institutions**
- Continuous guidance and support from experienced PIs from the Innovation Campus institutions
- This completely new inter-institutional program enables you to **excel in interdisciplinary research**
- Successful applicants are welcome to take up the post as soon as possible

Application Process

- Please register for access to the proposed Innovation Campus projects on our [website](#)
- Applicants need to apply solely via the application form on our [website](#)
- Applications should include (in a single PDF):
 - your CV
 - a publication list, and PhD/MD certificate
 - Template A: the project(s) you are interested in (see above) (up to 3 choices are possible) and a cover letter outlining your scientific interests
 - Or Template B: your own project idea, a support letter signed by the hosting PIs, and a cover letter outlining your scientific interests (see Guide for Applicants for details).
- Deadline for your applications is **April 22 2022, 9 pm CET**.
- Please submit your application as one single pdf via the contact form on our [website](#).
- For further information please check out our **Guide for Applicants** at <https://www.health-life-sciences.de>

The Heidelberg Mannheim Health and Life Science Alliance stands for equal opportunities and diversity. Qualified female candidates are especially invited to apply. Disabled persons will be given preference if they are equally qualified.

For further questions contact postdoc-alliance@uni-heidelberg.de

We look forward to your application!

About the Innovation Campus of the Heidelberg Mannheim Health and Life Science Alliance

The Innovation Campus Heidelberg Mannheim Health & Life Sciences thrives to promote research and innovation through synergy – by bridging world-leading life science and biomedical research institutions and by bringing together a highly diverse range of disciplines and a cluster of top researchers. Heidelberg University with its faculties of Medicine, Biosciences, and Engineering, the University Hospital Heidelberg (UKHD) and the University Hospital Mannheim (UMM), the German Cancer Research Center (DKFZ), the European Molecular Biology Laboratory (EMBL), the Max-Planck-Institute for Medical Research (MPIMR), and the Central Institute for Mental Health (ZI Mannheim) have the common goal to develop the Rhine-Neckar region into a world-leading innovation cluster by supporting cutting-edge research and promoting transfer of knowledge into new diagnostics and therapeutics. The participating research institutions are located at the heart of a highly dynamic urban economic and industrial area embedded in a beautiful region with high quality of life.
